

COVID-19 Update – August 6, 2020

Manitoba is currently in Phase 4 of restoring services. Occupancy limits have been lifted for all health professionals. Public Health states that you must continue to implement measures to ensure that members of the public are reasonably able to maintain a separation of at least two metres from others, except for brief exchanges. Requirements for self-isolating when showing symptoms and physical distancing continue.

All previous recommendations from MPAA still apply including screening prior to appointments, frequent cleaning of surfaces and wearing masks for all patient encounters.
